P R O F I L E

- Self-independent, reliable and friendly individual who works hard to achieve his goals.
- Adaptable quickly, and organized well. Interested in learning the latest web & software technologies quickly.
- Able to work well in teams as well as individually. My future goal is to become a Mern Stack developer.

W O R K   E X P E R I E N C E

OctaNet Services Pvt Ltd   Feb. 2024 - March 2024

- I gained hands-on experience in web development and learned about the latest web technologies and frameworks.
- I worked on two real-life projects, which helped me understand the development process.
- For my first task, I developed a responsive Landing Page using HTML, CSS, and JavaScript.
- Overall, my internship experience helped me develop my skills and provided me with a strong foundation for a career in web development

P R O J E C T S

Text Vox

- A Text to Speech Converter with features like volume, pitch, speed control and undo-redo button.
- Created using SpeechSynthesisUtterance Web API.
- Various effects are used to make it visually appealing.

Weather Website

- Developed a responsive weather website to practice APIs in Javascript.
- Tells the real time weather of desired city.
- Implemented different backgrounds according to weather to enhance the user experience and visual appeal.
- Implemented a fully responsive layout ensuring optimal viewing across various devices.

Landing Page

- Created a responsive landing page during internship with Octanet.
- Showcasing CSS skills and creativity.
